Maetrics Promotes Beth Crandall to Managing Director

Indianapolis (2/3/2016) Maetrics, a global management consulting firm providing life science companies with deep quality, compliance, and regulatory solutions, recently promoted Beth Crandall to the role of Managing Director. Ms. Crandall's duties will expand to leading client engagement strategies and solutions as well as providing technical oversight on managing key client relationships.

Ms. Crandall is a respected leader who brings over 15 years of experience in the life sciences industry specializing in the regulated medical device market. Ms. Crandall also possesses a strong background of leading large quality system programs and implementing changes to related policies, procedures, and systems.

"I am very pleased to promote Beth to the Managing Director level within our organization. She continues to prove herself as an outstanding leader for our company and an outstanding role model always exceeding our clients' expectations." said Steve Cottrell, President of Maetrics.

Ms. Crandall earned a Bachelor of Arts degree from the College of St. Thomas in Business Administration, Human Resource Management. A certified Project Manager (PMI PMP), Ms. Crandall has presented at several medical device conferences and published "A Blueprint for Quality" in MD&DI magazine.

About Maetrics

Founded in 1984, Maetrics is a global consulting firm dedicated to guiding life sciences companies through the challenges related to quality, regulatory, and compliance. Our comprehensive solutions allow clients to reach new efficiencies and achieve compliance objectives.
