## Maetrics appoints Brian Moan to European Solutions Delivery Team

04 September 2017 – [Maetrics](#), a global leader in life science consulting, has appointed Brian Moan to Director of Solutions Delivery in Europe. A highly qualified industry expert, Brian is a proven leader with a strong track record in regulatory compliance as well as product quality and design.

With over 20 years of experience working with medical device manufacturers, Brian brings extensive industry experience to Maetrics and is ready to share his expertise with its clients. Having recently been Head of a European based Notified Body, Brian will provide valuable insight on CE Marking, Post Market Surveillance (PMS) and conformity assessments in compliance such as auditing, effective Technical File development and maintenance, and clinical evaluations.

Brian is also a respected thought leader specialising in Human Factors and has been involved in MHRA working groups to develop industry guidance. He has frequently presented around regulatory issues and his standing as a thought leader is further confirmed by his role developing Medical Device presentations at Cranfield University as part of their MSc Program on Medical Devices.

Steve Cottrell, President at Maetrics, comments: “We are delighted that Brian is joining the Maetrics team. His practical experience across Europe and standing in the world of regulatory compliance means that he understands our client’s objectives and pain points enabling him to help them tackle thorny compliance issues and their repercussions on the overall business. With over 20 years of experience, Brian is an accomplished professional who we are confident will be able to deliver solutions to drive our client’s success in the medical device market.”

Brian adds: “Working with Maetrics will allow me to apply the experience I have gathered over the years to a diverse portfolio of clients across Europe, helping them tackle compliance in the most efficient and effective way. I am delighted to be taking on this challenge and look forward to supporting the life science industry on strategic regulatory issues.”

--- end ---

### **About Maetrics**

Founded in 1984, Maetrics is a global life sciences consulting firm focused exclusively on regulatory, quality, and compliance solutions for Medical Device, Diagnostic, Pharmaceutical and Biotechnology companies. With offices throughout Europe and North America, Maetrics can assist with local, regional, or global compliance needs.
